

Welcome

Welcome to lvandermeer.com

L. van der Meer Recreatie- en Watermanagement specialises in the supply of infrastructural consultancy services to both companies and authorities.

Our target group consists of:

- marinas/yacht harbours
- campsites
- project developers
- the industrial sector
- local authorities
- regional authorities
- district water boards etc.

Together with our network of suppliers and partners we can ensure that you receive the recommendations that best match your requirements.

We can make detailed project calculations for you for:

- funding applications
- subsidy requests
- the execution of entire projects

We can handle the subsequent project management for you.

We can arrange to sell off usable materials released during your projects.
